

IMPROVING
THE WAY YOU
MANAGE YOUR
WORKFORCE

Job & Labor Costing

Labor Tracker is a must for any business wanting to eliminate costly and redundant manual methods of collecting, calculating and reporting on job-based labor activities.

Labor Tracker will greatly reduce paperwork, streamline job orders and provide you with fingertip labor cost and performance information. With **Labor Tracker**, all information is consolidated and integrated with **Employee Tracker** for fast and convenient access.

Labor Tracker stands alone or integrates seamlessly with most ERP/MRP packages.

Labor Tracker features include:

Enter/Edit Work Orders by:

- Customer
- Item
- Start/Due/Close Dates
